

MESSAGE FROM THE PRESIDENT

Welcome to Saint Vincent College!

You are now part of a first-rate Catholic, Benedictine college that has been providing a liberal arts education and preparing students for success for 163 years.

But our tradition started long before that – over the past several months, we’ve been celebrating the 200th anniversary of the birth of Saint Vincent’s founder Boniface Wimmer. This commemoration will culminate with an exciting Founders Day event this fall, when we will also honor our Benedictine Heritage, established by St. Benedict nearly 1500 years ago.

Based on such a strong foundation, we confidently follow Archabbot Wimmer’s direction to “move forward, always forward, everywhere forward.” The College continues to develop new programs, enhance services, and improve our facilities. Students are enjoying the new artificial field which was installed last spring, and construction is underway on the Sis and Herman Dupré Science Center complex. Master planning is in the works to ensure the College environment will remain one that increasingly supports student learning, enjoyment and success.

Throughout my years of service as President, I have remained committed to ensuring a campus community that supports your intellectual, spiritual, and emotional growth. True to our heritage, we strive to make Saint Vincent College what His Holiness Pope Benedict XVI asks us to be – a place “to encounter the living God who in Jesus Christ reveals his transforming love and truth.”

God bless you and see you soon.

Kind regards,

Jim Towey
President
